YPQA Basics

Foundational Training for incoming NAZA- funded Partners: The Youth Program Quality Assessment (YPQA) is a validated instrument designed to empower you to evaluate the quality of your youth program, giving you the tools to identify your program's strengths and target areas for improvement. Using the YPQA tool, you will be able to measure the quality of your program's (1) safe environment, (2) supportive environment, (3) interaction amongst peers and between peers and adults, and (4) youth engagement. You will receive access to the assessment tool, guidebook, and instruction on how to use the YPQA to assess, plan, and improve your program. This tool can be used continuously to support your staff's development. **YPQA Basics is mandatory training for program administrators and site coordinators associated with NAZA- funded program sites.**

Online Youth Work Methods Courses, PQA Basics, and Intro to Continuous Quality Improvement.
The Youth Work Methods are powerful strategies for working with young people, bringing together over fifty years of experience and the latest research in positive youth development. These interactive and hands-on courses provide participants with practical skills that are geared to improve the quality of interactions with youth. PQA Basics and Intro to Continuous Quality Improvement support program improvement efforts and make the case for program quality and its importance in fostering youth engagement, skill development, and youth outcomes (the QUEST model).
Please fill out the form below to enroll in the Youth Center's online Youth Work Methods courses, PQA Basics, and Intro to Continuous Quality Improvement.
